Office Action Summary

Art Unit: 1617

Claim 31 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 31 line 4 "Glutamate" is indefinite. Is "Glutarate" or "Glutaconate" intended? (See also page 13 line 27 in the spec).

In claim 31 line 4, Tributyrin is ~~is~~ insoluble in water, contrary to claim 1. (See Merck Index, 11th ed).

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-3, 14, 15, 19, 28-31 are rejected under 35 U.S.C. 102(e) as being anticipated by Brodbeck et al. '331.

Brodbeck et al '331 teach an active agent in an emulsifying agent dispersed in a gel comprising a polymer and a solvent (column 3 lines 18-50). Polylactides are specified (column 4, line 31). Water is disclosed (column 9 line 1). Any pharmaceutical,

Art Unit: 1617

including an antinflammatory, is specified (column 5 lines 53, 54 column 6, lines 13-14).

Other agents are disclosed (column 9, lines 12-18).

Solvents, including methylacetate, ethylacetate, methyl ethyl ketone, and tetrahydrofuran, all claimed by applicants, are specified (column 5, lines 8-18).

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
